

Weiss Advanced Manufacturing, LLC

Mailing address:
5960 Fairview Rd.
Suite 400
Charlotte, NC 28210

**PRODUCT DATA SHEET
& MATERIAL SAFETY DATA SHEET**
acc. to A HCS (29 CFR 1910.1200)

1 IDENTIFICATION

Product Identifier	White Aluminium Oxide
Synonyms	White Fused Aluminium Oxide, Al ₂ O ₃
CAS No. / EC No.	1344-28-1 / 215-691-6
Recommended Use	Grinding, blasting, lapping, anti-skid, thermal coatings, polishing compounds
Use(s) Advised Against	Contact manufacturer if using product outside of recommended use cases.

Manufacturer/Supplier	Weiss Advanced Manufacturing, LLC Email: wturner@weissgrit.com www.weissgrit.com
-----------------------	---

All other regions contact your local poison control center or local chemical authority.

2 HAZARD(S) IDENTIFICATION

Classification of the substance or mixture:

Classification has been determined in accordance with United States OSHA HCS (29 CFR 1910.1200) requirements and any corresponding Globally Harmonized System (GHS) classification parameters.

Additional Information	No additional information available at time of document authoring.
-------------------------------	--

LABEL ELEMENTS

GHS Label Elements	Product has been determined not to be hazardous per GHS standards.
Pictograms:	None
signal Word:	None

Hazard-determining components of labelling	See Section 3 for more information.
---	-------------------------------------

Hazard Statements:	N/A
Precautionary Statements:	N/A
HMIS Ratings (scale 0-4):	

HMIS Ratings (scale 0-4):

Health:	0
Fire:	0
Reactivity:	0
PPE:	

NFPA Ratings (scale 0-4):

Health:	0
Fire:	0
Reactivity:	0
Specific Hazard:	

Legend

4 – Extreme
3 – Serious
2 – Moderate
1 – Slight
0 - Minimal

* Indicates a long-term health hazard from repeated or prolonged exposures

Other Hazards:

3 COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Characterization: Substance

Identifier	Chemical Name/Description	GHS Hazard(s)	Wt. %
CAS No.: 1344-28-1 EC No.: 21p-691-6	Aluminium Oxide, Al ₂ O ₃	N/A	599

Exact chemical identifier(s) or percentage(s) may vary on a batch-by-batch basis. Product may contain hazardous chemicals below reportable concentrations as byproducts or contaminants.

4 FIRST AID MEASURES

General Information:	Seek medical advice if symptoms occur after exposure.
After inhalation:	Supply fresh air. Get medical help if symptoms occur.
After contact with eyes:	Irrigate with large quantities of water for at least 10 minutes. Remove contact lenses if present and easy to do so. Seek medical help if persistent irritation or tissue damage occur.
After skin contact:	Wash thoroughly with soap and water. Seek medical advice if any symptoms occur
After swallowing:	If swallowed, rinse mouth with plenty of water if affected person is fully conscious. Do not give anything by mouth or induce vomiting in an unconscious person. Seek medical advice.
Key symptoms and effects, both acute and delayed:	Intense coughing, gastric or intestinal disorders, breathing difficulty.
Indication(s) of need for immediate medical help:	Any indication of tissue damage, respiratory distress, or distress of the digestive system from exposure.

5 FIREFIGHTING MEASURES

Flash point: N/A	UEL: N/A	LEL: N/A
Auto-ignition temperature:	N/A	
Extinguishing media:	Use any suitable media for the environment in which the fire or conflagration is taking place. Be mindful of any surrounding flammable/combustible materials.	
Hazardous decomposition products:	None anticipated.	
Firefighting instructions:	Firefighters and other involved individuals should wear self-contained breathing apparatuses and be aware of any other flammable/combustible substances involved in the fire.	

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, and emergency procedures:	No special measures required. Per general best practices: wear protective clothing, ensure adequate ventilation, avoid dust formation, use respiratory protective devices when anticipating fumes or dusts, and avoid contact with the eyes and skin where possible.
Environmental precautions:	Per best general practices, prevent material from entering drains or water courses. Do not allow to enter soil.
Methods and material for containment and cleanup	Avoid formation of dust. Pick up mechanically. Ensure adequate ventilation. Store in suitable receptacles for recovery or disposal. Verify compliance with local regulations for waste disposal.
Other information:	See Section 7 for additional information on safe handling. See Section 8 for additional information on personal protective equipment. See Section 13 for additional information on disposal.

7 HANDLING AND STORAGE

Precautions for safe handling:	Wear protective clothing. Prevent formation of dust. Any deposit of dust which cannot be avoided must be regularly removed. Provide suction extractors if dust is formed. Handle only in well-ventilated areas. Avoid product contact with the eyes or skin. Wash hands and face after handling
Information about protection against explosions and fires	No special measures required.
Requirements for storerooms and receptacles:	Storage should occur in cool, dry, well-ventilated areas.
Information regarding storage in common storage facility:	Store away from strong acids and oxidizing agents.
Further information about storage conditions:	Store receptacle well-sealed in a well-ventilated area: material is hygroscopic and should be protected from humidity and water.

8 EXPOSURE CONTROLS / PERSONAL PROTECTION

Applicable component occupational exposure limits requiring monitoring at the workplace:

Aluminium Oxide, Al₂O₃ (CAS 1344-28-1)

OSHA PEL, CWA (8-hr): 10 mg/m³ (total), 5 mg/m³ (respirable)

ACGIH TLV, CWA (8-hr): 1 mg/m³ (respirable particulate matter)

California: CREL/OSHA PEL, CWA (8-hr): 10 mg/m³ (total), 5 mg/m³ (respirable)

Additional limit information: No additional information available at time of document authoring.

Engineering controls: Ensure good ventilation in the workplace.

Risk management: No special measures required.

PERSONAL PROTECTIVE EQUIPMENT

Breathing equipment: Use suitable respiratory protective devices when high dust levels present.

Hand protection: Wear protective gloves to ensure against mechanical hazards.

Eye protection: Wear safety glasses or goggles to protect against eye exposure.

Body protection: Wear general protective work clothing.

9 PHYSICAL AND CHEMICAL PROPERTIES

Physical state:	Granulate or Powder
Color:	White to Light Gray
Odor:	Odorless
Odor threshold:	N/A
pH:	Slightly alkaline (suspension in water)
Melting/Freezing point:	3722° F (20p0°C)
Initial boiling point:	N/A
Boiling point range:	N/A
Flash point:	N/A
Flammability:	Product is not flammable
Upper explosive limit:	N/A
[ower explosive limit:	N/A
Auto-ignition temperature:	N/A
Evaporation rate:	N/A
±apor pressure:	N/A
±apor density:	N/A
Relative density:	3.95, Water: 1.00 at 68° F (20°C)
Water solubility:	Insoluble
Partition coefficient:	No data available
Yinematic viscosity:	No data available
Particle characteristics:	Granule and Powder size: various

10 STABILITY AND REACTIVITY

Thermal decomposition / conditions to be avoided:	No decomposition anticipated under standard use, transport and storage conditions. May separate into individual components under extreme heat
Hazardous reaction potential:	No hazardous reactions anticipated.
Incompatible materials:	Reacts with strong acids, oxidizing agents, and strong bases.
Hazardous decomposition products:	May produce metal oxide smoke in the event of fire.
Other Information:	No additional information available at time of document authoring.

11 TOXICOLOGICAL INFORMATION

Component LC₅₀/LD₅₀ values relevant for classification:	None
Probable routes of exposure:	Dust inhalation, accidental ingestion, direct skin/eye contact.
Effects on skin:	No relevant effects known
Effects on eye:	Slight irritation may occur with direct eye contact
Inhalation effects:	Repeated or long-term inhalation of dusts may cause pulmonary disease.

Sensitization effects:	No relevant effects know
Subacute/chronic toxicity:	No relevant effects known
Carcinogenicity:	
NTP Listing Status:	Not listed as a carcinogen
IARC Listing Status:	Not listed as a carcinogen
OSHA Listing Status:	Not listed as a carcinogen
Cell mutagenicity:	No relevant effects known
Reproductive effects:	No relevant effects known

12 ECOLOGICAL INFORMATION

Aquatic toxicity:	Product not determined to be toxic to the aquatic environment.
Persistence and degradability:	Inorganic product, not eliminable from water by biological means.
Results of PBT assessment:	No data available
Results of vPvB assessment:	No data available
LogK_{ow} , BCF values:	No data available
Bio accumulative potential:	No significant accumulation in organisms.
Mobility in soil:	No relevant information available at time of document authoring.
Other adverse effects:	No relevant information available at time of document authoring.
Additional information:	No relevant information available at time of document authoring.

13 DISPOSAL CONSIDERATION

Waste treatment methods:	Do not dispose of product via sewage system or other liquid waste streams. Contact your local waste disposal authority to determine necessary steps for disposal in your locality.
Contaminated packaging:	Contact your local waste disposal authority to determine necessary steps for disposal in your locality.
Additional information:	Refer to Section 8 for exposure controls, personal protective equipment

14 TRANSPORT INFORMATION

DOT (US)	Not regulated for transport
IMDG/IMO	Not regulated for transport
IATA	Not regulated for transport
General Information:	No additional information.

15 REGULATORY INFORMATION

SARA 355 Components:	Not listed
SARA 313 Components:	Not listed
TSCA listing status:	Listed
Determinations of carcinogenic status:	

California Prop. 65: Not listed as a carcinogen or reproductive toxin.

EPA: Not listed as a carcinogen
IARC: Not listed as a carcinogen
ACGIH: Not listed as a carcinogen
NIOSH: Not listed as a carcinogen

State right-to-know listings: New Jersey: Aluminium Oxide (CAS 1344-28-1)
New York City: Aluminium Oxide (CAS 1344-28-1)
Rhode Island: Aluminium Oxide (CAS 1344-28-1)

Information pertaining to Canadian regulations:

Canadian Domestic Substances List: Listed

Other regulations, limitations, and prohibitive regulations: This product has been classified in accordance with hazard criteria of the Hazardous Products Regulations, SOR/201p-17.

16 OTHER INFORMATION

All information provided is based on Weiss Advanced Manufacturing, LLC present knowledge and understanding of this product and any applicable regulations and data. Any information provided does not constitute a guarantee for specific product features nor does it establish a legally valid contractual relationship.
